Front-end developer seeking a full time job starting Fall 2024.

EXPERIENCE

Web Strategist Co-op

January 2023 – Present

Toast, Inc.

- Created new pages and edited current pages within the site using **Craft CMS**
- Collaborate with developers and designers to identify bugs and other necessary updates needed for the website
- Educated employees across different departments on utilizing the CMS to fulfill the business' various needs
- Created and handled tickets for different stakeholders in **Jira** and **Asana**

Full Stack Developer Co-op

July – December 2022

Sandbox Union

- Developed a history and refresh feature to enhance the chatbot experience for Gideon, a legal software company
- Implemented backend/API calls into the frontend for chatbot and admin UI with **React Native**
- Integrated a new redesign for the admin UI from **Figma** using **Sass**

Web Developer/Designer Intern

June – August 2021

Kodak

- Implemented enhancements and fixed bugs on company's new website using **Nuxt JS**
- Designed new footers for each section with **Adobe XD** to increase usability
- Utilized **Craft CMS** to migrate content from company's former to current website
- Communicated with over 40 satellite offices worldwide to improve **Search Engine Optimization** through **Google My Business**

PROJECTS

Sky Tunes

May 2021

- Developed a website that recommends a playlist of songs based on the current weather of user-selected city and user's music preference using **JavaScript**, **CSS**, and **HTML**
- Integrated a **Weather API** to obtain the current weather from desired city
- Implemented **Spotify API** to obtain song recommendations and to allow users to preview the songs in the playlist
- Used **local storage** to save user input for a more convenient experience
